

Mezzanine column protection – industrial buildings

PolyWRAP SpaceSaver 150 – Impact protection & Safety Products for Industrial Buildings

Description

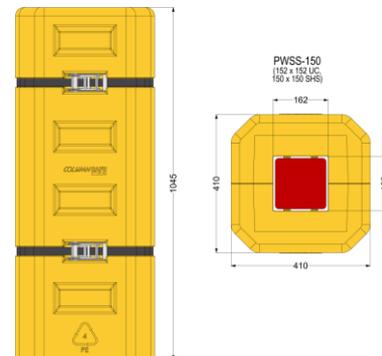

PolyWRAP SpaceSaver Column Protectors are designed to make columns highly visible to MHE/PIT traffic operators - see the column and avoid hitting it in the first place.

Specifically designed to suit Mezzanine Columns where space is of a premium. Clashes with columns and the Poly- WRAP SpaceSaver will cushion the impact.

Suitable for pallet/pump trucks and powered trucks, the PolyWRAP will keep the vehicle free from damage and most importantly protecting the column.

The tough Polyethylene construction makes this the product of choice for most industrial facilities—no fixtures to the slab this is a simple clam-shell fitment.

The performance of the PolyWRAP SpaceSaver will depend on vehicle speeds, weights and condition of impact.

Property	Specification
Material	Polyethylene
Recycling Group	PE/4
Colour	Yellow & Black – Caution/Hazard
Height	1040 mm
Footprint	410 x 410 mm
